Pranjal Dwivedi

Bhopal, Madhya Pradesh | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Computer Science Engineering (AI & ML) undergraduate at Technocrats Institute of Technology & Science, RGPV, with project experience building Python REST APIs and data workflows. Interested in backend software engineering and AI/ML; currently strengthening machine-learning and problem-solving fundamentals.

EDUCATION

B.Tech., Computer Science Engineering (AI & ML)
Technocrats Institute of Technology & Science, RGPV | Bhopal, Madhya Pradesh | 3rd Semester

TECHNICAL SKILLS

Languages: Python, C++, SQL, JavaScript
Backend: FastAPI, REST APIs, SQLAlchemy, Pydantic
Databases: PostgreSQL, SQLite
Data: Pandas
Tools: Git, GitHub, Docker, VS Code
Frontend: HTML, CSS

PROJECTS

Personal Finance Ingestion API GitHub Repository

Python, FastAPI, SQLAlchemy, Pydantic, Pandas, PostgreSQL, Docker

- Implemented JSON and CSV bank-statement ingestion with Pandas column normalization, row validation, and error reporting.
- Built SHA-256 transaction fingerprinting to detect duplicates; added account/date/category filters, pagination, and category/month spending summaries.
- Configured PostgreSQL persistence with Docker Compose and tested API workflows against an in-memory SQLite database.

Student Management System GitHub Repository

Python, FastAPI, SQLAlchemy, PostgreSQL, SQLite, JavaScript, HTML, CSS

- Developed a FastAPI CRUD backend and responsive JavaScript frontend for student-record workflows.
- Implemented validated data models, computed letter grades, course filtering, sorting, search, and pagination.
- Configured PostgreSQL/SQLite persistence and JSON-based initial data seeding.

CURRENTLY LEARNING

NumPy, machine-learning fundamentals, and data structures and algorithms.
